* We identify two broad categories of funds to help investors think about how to construct their overall investment portfolio. We describe the following as "Core": (A) Equity funds with a global investment remit or those mainly focused on US and European markets, given the size and transparency of these markets. (B) Fixed income funds with a global investment remit or those mainly focused on US, European and UK markets and invest predominantly in investment grade debt, including government. (C) Multi asset funds with a multi asset benchmark. All other funds we describe as "Complements". Both Core and Complement funds can vary in risk level and those terms are not meant to indicate the risk level of the funds. There is no guarantee that these objectives will be met.

For regionally focussed investment portfolios we understand that the categorisation may be different from the perspective of different investors. Consult your financial adviser before investing to help determine if an investment in this fund and the amount of the investment would be suitable.

⁽¹⁾ The GS Yen Liquid Reserves Fund is classified as a "Short Term Money Market Fund" in accordance with the European Securities and Markets Authority (ESMA)'s Guidelines on a common definition of European Money Market Funds, dated May 2010. This classification requires certain criteria to be met by the Fund, including sensitivity to interest rate risk (WAM), maximum maturity of instruments, portfolio liquidity, and level of credit risk. ⁽²⁾ The ongoing charges figure is based on expenses during the previous year. See details in the Key Investor Information Document. ⁽³⁾ Fund returns are shown net of applicable ongoing fees within the portfolio, with dividends re-invested using the ex-dividend NAV. These returns are for comparison of performance against specified index. As the investor may be liable to other fees, charges and taxes, they are not meant to provide a measure of actual return to investors. The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares. ⁽⁴⁾ Holdings detail total trade par exposure as at date of report. ⁽⁵⁾ Please note that the credit allocation provided details the S&P's breakdown of the fund as at the reported date. For repurchase agreement counterparties we have provided the average rating of the counterparties. Portfolio holdings may not represent current, future investments or all of the portfolio's holdings. Future portfolio holdings may not be profitable.

Goldman Sachs Yen Liquid Reserves Fund

Important Risk Considerations

- **Counterparty risk** a party that the Portfolio transacts with may fail to meet its obligations which could cause losses.
- **Credit risk** the failure of a counterparty or an issuer of a financial asset held within the Fund to meet its payment obligations will have a negative impact on the Fund.
- **Custodian risk** insolvency, breaches of duty of care or misconduct of a custodian or subcustodian responsible for the safekeeping of the Fund's assets can result in loss to the Fund.
- **Interest rate risk** when interest rates rise, bond prices fall, reflecting the ability of investors to obtain a more attractive rate of interest on their money elsewhere. Bond prices are therefore subject to movements in interest rates which may move for a number of reasons, political as well as economic.
- **Liquidity risk** the Fund may not always find another party willing to purchase an asset that the Fund wants to sell which could impact the Fund's ability to meet redemption requests on demand.
- **Market risk** the value of assets in the Fund is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
- **Operational risk** material losses to the Fund may arise as a result of human error, system and/or process failures, inadequate procedures or controls.
- **Share reduction risk** on any day where the assets of the Fund (less fees and expenses) produce a negative return, the number of Shares held by each Shareholder will be reduced by way of a share redemption, the proceeds of such redemption will not be paid to the Shareholders but will be retained by the Fund to meet the negative return.

Glossary

- **Net Asset Value** – Represents the net assets of the fund (ex-dividend) divided by the total number of shares issued by the fund.
- **Ongoing Charges** – The ongoing charges figure is based on the fund's expenses during the previous 12 months, on a rolling basis. It excludes transaction costs and performance fees incurred by the fund.
- **Weighted Average Maturity (WAM)** – Measures the deviation in portfolio weights from the comparative index/benchmark.
- **Weighted Average Life(WAL)** – Forecast sensitivity of portfolio returns to the comparative index calculated over X years.

Additional Notes

This material is a financial promotion and has been issued by Goldman Sachs International, authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

Furthermore, this information should not be construed as financial research. It was not prepared in compliance with applicable provisions of law designed to promote the independence of financial analysis and is not subject to a prohibition on trading following the distribution of financial research.

This information is intended for viewing only by the intended recipient and may not be reproduced or distributed to any person in whole or in part without the prior written consent of GSI. Goldman Sachs International accepts no liability for the misuse or inappropriate distribution of this material.

Offering Documents: This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the fund and does not constitute an offer to buy shares in the fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KIID and latest annual/semi-annual report are available free of charge from the fund's paying and information agent and/or from your financial adviser and at www.gsam.com/kiids.

Distribution of Shares: Shares of the fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

Investment Advice and Potential Loss: Financial advisers generally suggest a diversified portfolio of investments. The fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them.

An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Fees are generally billed and payable at the end of each quarter and are based on average month-end market values during the quarter.

Additional information is provided in our Form ADV Part-2 which is available at http://www.adviserinfo.sec.gov/IAPD/Content/Search/iapd_Search.aspx.
