

# Goldman Sachs Sterling Short Duration Bond Portfolio (the "Portfolio")

## Class I Shares

(ISIN: LU1409380927)

### a sub-fund of Goldman Sachs Funds (the "Fund")

The Portfolio is managed by Goldman Sachs Asset Management Fund Services Limited (the "Manager"), part of Goldman Sachs group of companies.

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Objectives and Investment Policy

- The Portfolio seeks to provide income and capital growth over the longer term.
- The Portfolio will mostly invest in investment grade (or equivalent) short duration fixed and floating rate debt securities of any type of issuer denominated in Sterling. The Portfolio will have an average duration of three years or less. The Portfolio may also invest in non-Sterling denominated securities (and investment techniques may be used to attempt to reduce the risk of currency movements against the Sterling).
- The Portfolio will not invest more than one-third of its assets in other securities and instruments.
- The Portfolio will not invest more than one tenth of its assets in other collective investment schemes.
- The Portfolio may invest more than 20% in mortgage and asset-backed securities.
- The Portfolio uses derivatives as part of its investment policy to gain exposure to, interest rates, credit and/or currencies in order to seek to increase return, to leverage the Portfolio and to hedge against certain risks. A significant proportion of the Portfolio's exposure may be generated through the use of derivatives. A derivative instrument is a contract between two or more parties whose value depends on the rise and fall of the underlying asset.
- Shares in the Portfolio may be redeemed daily (on each business day) on

demand.

- The reference benchmark is the Bloomberg Barclays Sterling Aggregate 1-3 Yr Index (Total Return Gross). The Portfolio is actively managed and is not designed to track the specified reference benchmark. Therefore returns may deviate materially from the performance of the specified reference benchmark.
- Income (net of expenses) is distributed on an annual basis.
- The Portfolio currency is GBP. The share class currency is GBP.
- **For full investment objective and policy details see the Prospectus.**

## Risk and Reward Profile

This risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Portfolio. The risk category shown is not guaranteed and may change over time. The lowest category does not mean risk free. It is possible that a portfolio stated to have a lower risk profile may in fact fall in value more than a portfolio with a higher risk profile.

The Portfolio is in category 1 as it mostly invests in fixed income securities which typically experience lower levels of price fluctuation than shares and similar instruments.

The capital is not guaranteed.

### Other Material Risks:

- **Market risk** - the value of assets in the Portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
- **Operational risk** - material losses to the Portfolio may arise as a result of human error, system and/or process failures, inadequate procedures or controls.
- **Liquidity risk** - the Portfolio may not always find another party willing to purchase an asset that the Portfolio wants to sell which could impact the Portfolio's ability to meet redemption requests on demand.
- **Exchange rate risk** - changes in exchange rates may reduce or increase the returns an investor might expect to receive independent of the performance of such assets. If applicable, investment techniques used to attempt to reduce the risk of currency movements (hedging), may not be effective. Hedging also involves additional risks associated with derivatives.
- **Custodian risk** - insolvency, breaches of duty of care or misconduct of a custodian or sub-custodian responsible for the safekeeping of the Portfolio's assets can result in loss to the Portfolio.
- **Interest rate risk** - when interest rates rise, bond prices fall, reflecting the ability of investors to obtain a more attractive rate of interest on their money elsewhere. Bond prices are therefore subject to movements in interest rates which may move for a number of reasons, political as well as economic.
- **Credit risk** - the failure of a counterparty or an issuer of a financial asset

held within the Portfolio to meet its payment obligations will have a negative impact on the Portfolio.

- **Derivatives risk** - derivative instruments are highly sensitive to changes in the value of the underlying asset that they are based on. Certain derivatives may result in losses greater than the amount originally invested.
- **Counterparty risk** - a party that the Portfolio transacts with may fail to meet its obligations which could cause losses.
- **Leverage risk** - the Portfolio may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged Portfolio may result in large fluctuations in the value of the Portfolio and therefore entails a high degree of risk including the risk that losses may be substantial.
- **Asset-backed securities ("ABS") risk** - the assets backing ABS may be repaid earlier than required, resulting in a lower return.
- **For more detailed information on the risks associated with an investment in the Portfolio, please refer to the section in the Prospectus entitled "Risk Considerations" and discuss with your professional advisers.**

## Charges

The charges you pay are used to pay the cost of running the Portfolio, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken over a year	
Ongoing charges	0.30%
Charges taken under certain specific conditions	
Performance fee	none

Where applicable, the entry and exit charges shown are maximum figures and in some cases you might pay less - please contact your professional advisers for more information.

The ongoing charges figure is based on expenses for the year ending November 2018. This figure may vary from year to year. It excludes transaction costs (including taxes and brokerage commissions) and any borrowing costs, which are payable from the assets of the Portfolio and may impact returns on your investment, and performance fees (where applicable).

**For more information about charges, please refer to the Fund's Prospectus, section entitled "Fees and Expenses" and the relevant supplement for the Portfolio.**

## Past Performance

The Portfolio was launched in June 2016. The share class was launched in June 2016.

Where applicable, past performance has been calculated in GBP and is expressed as a percentage change of the Portfolio's Net Asset Value at each year end (net of all fees). Where past performance is not shown there is insufficient data to provide a useful indication of past performance.

The Portfolio's investment policy changed on 07/08/2017 and Benchmark changed on 07/08/2017. The past performance data shown in the chart for annual periods prior to that date related to the Portfolio's previous Benchmark, BofA Merrill Lynch 0-1 Year UK Gilt Index (Total Return Gross).

## Practical Information

**Depository:** State Street Bank Luxembourg S.C.A.

**Further Information:** The Prospectus, annual and semi-annual reports and latest share price are available free of charge from the Fund's registered office, the Manager, administrator or the Portfolio's distributors. The Prospectus is available in English, French, German, Italian and Spanish.

This document is for a single Portfolio of the Fund and the Prospectus, annual and semi-annual reports is for the entire Fund.

The Fund is an investment company with segregated liability between portfolios under Luxembourg law. Therefore, the assets of the Portfolio you have invested in should not be used to pay the liabilities of other portfolios. However, this has not been tested in other jurisdictions.

**Switching between Portfolios:** Shares are available in other share classes and in other currencies as may be specified in the Prospectus. Shareholders may apply for their shares in any share class of any portfolio to be converted into any share class of another portfolio, subject to the conditions set out in the Prospectus (charges may apply).

**Liability Statement:** The Fund may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

**Tax Legislation:** This Portfolio's investments may be subject to tax in the countries in which it invests. In addition, this Portfolio is subject to the tax law and regulation of Luxembourg which may have an impact on your personal tax position and impact your investment. For further details, please speak to your professional advisers.

**Remuneration Policy:** Details of the up-to-date remuneration policy of the Manager, including, but not limited to, a description of how the remuneration and benefits are determined and governed by the Manager, are available at <https://www.gsam.com/content/dam/gsam/pdfs/international/en/pds-and-regulatory/important-additional-information/GSAMFSL%20-%20Compensation%20Policy%20Statement.pdf> and a paper copy is made available free of charge upon request.
