Goldman Sachs MLP and Energy Renaissance Fund Announces Quarterly Distribution of \$0.16 Per Share

New York, NY, February 7, 2020 — **Goldman Sachs MLP and Energy Renaissance Fund (the “Fund”) (NYSE: GER)** is pleased to announce its quarterly distribution of \$0.16 per common share, the same as the previous quarter. The distribution is payable on the date noted below. Given the volatility in the midstream sector, the portfolio management team will continue to evaluate the level of leverage employed by the Fund and the resulting impact on a sustainable distribution level in the coming quarters.

The distribution schedule is as follows:

Ex-Date:	February 21, 2020
Record Date:	February 24, 2020
Payable Date:	February 28, 2020
Amount:	\$0.16 per share

It is currently anticipated that a portion of this distribution will be treated for tax purposes as a return of capital, however, the final characterization of such distribution will be made in early 2021 when the Fund can determine its earnings and profits for the full year. The final tax status of the distribution may differ substantially from this preliminary information.

In addition, portfolio holdings as of December 31, 2019, as well as additional information regarding the Fund, can be accessed through the GSAM Closed-End Fund landing page at www.GSAMFUNDS.com/cef.

Disclosures

Shares of closed-end investment companies frequently trade at a discount from their net asset value (“NAV”), which may increase investors’ risk of loss. At the time of sale, an investor’s shares may have a market price that is above or below NAV, and may be worth more or less than the original investment. There is no assurance that the Fund will meet its investment objective. Past performance does not guarantee future results. Investments in securities of MLPs involve risks that differ from investments in common stock, including among others risks related to limited control and limited rights to vote on matters affecting MLPs, potential conflicts of interest risk, cash flow risks, dilution risks and trading risks.
