The National Association of Insurance Commissioners (NAIC) designated the Goldman Sachs Financial Square Government Fund as U.S. Direct Obligations/Full Faith & Credit Exempt and is therefore exempt from NAIC capital reserve requirements.

The National Association of Insurance Commissioners (NAIC) is the organization of insurance regulators from the 50 states, the District of Columbia and the five U.S. territories. The NAIC provides a forum for the development of uniform policy when uniformity is appropriate. The NAIC's Securities Valuation Office (SVO), located in New York City, is responsible for the day-to-day credit quality assessment and valuation of securities owned by state regulated insurance companies. Insurance companies report ownership of securities to the SVO when such securities are eligible for filing on Schedule D or DA of the NAIC Financial Statement Blank. The SVO conducts credit analysis on these securities for the purpose of assigning an NAIC designation and/or unit price. These designations and unit prices are produced solely for the benefit of NAIC members who may utilize them as part of the member's monitoring of the financial condition of its domiciliary insurers. Unlike the ratings of nationally recognized statistical rating organizations, NAIC designations are not produced to aid the investment decision making process and therefore are not suitable for use by anyone other than NAIC members. Exempt funds do not require a capital reserve; Class 1 funds require insurance companies to set aside a risk-based capital charge when purchasing Class 1 funds. For complete information on the methodology used by NAIC, please visit the following website: <http://www.naic.org/svo.htm>
