High Quality Through Separate and Independent Credit Analysis

Since 1981, we continue to strengthen our focus on credit quality by leveraging the Goldman Sachs & Co. Credit Department. This group comprises more than 300 credit professionals, focuses exclusively on credit analysis, is a separate operating entity, and is in no way subordinate to GSAM.¹

The Goldman Sachs Credit Department:

- **Constructs and maintains** the GSAM Money Market Credit Approved List
- **Communicates daily** with GSAM portfolio managers to review potential credit risks, discuss changing credit conditions and gauge liquidity of issuers
- **Reviews and approves** all additions, deletions and/or changes to the Approved List

**S&P’s AAAm rating:** A fund rated “AAAm” has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market and/or liquidity risks. “AAAm” is the highest principal stability fund rating assigned by Standard & Poor’s. **Moody’s Aaa-mf rating:** Money market funds and bond funds rated Aaa-mf are judged to be of an investment quality similar to Aaa-rated fixed income obligations, that is, they are judged to be of the best quality. **Fitch AAA/V1+ rating:** Money market funds have the highest credit quality and safety of principal. Fund management’s experience, coupled with fund policies and procedures, indicates safety is extremely strong. The V1+ rating is Fitch’s highest volatility rating and is reserved exclusively for stable NAV funds. Ratings are subject to change and do not imply the elimination of risk. The National Association of Insurance Commissioners (NAIC) designated the Goldman Sachs Financial Square Prime Obligations Fund as Class 1. NAIC Class 1 designation subjects the Fund to capital reserve requirements as if it was a NAIC-1 Bond.

The National Association of Insurance Commissioners (NAIC) is the organization of insurance regulators from the 50 states, the District of Columbia and the five U.S. territories. The NAIC provides a forum for the development of uniform policy when uniformity is appropriate. The NAIC’s Securities Valuation Office (SVO), located in New York City, is responsible for the day-to-day credit quality assessment and valuation of securities owned by state regulated insurance companies. Insurance companies report ownership of securities to the SVO when such securities are eligible for filing on Schedule D or DA of the NAIC Financial Statement Blank. The SVO conducts credit analysis on these securities for the purpose of assigning an NAIC designation and/or unit price. These designations and unit prices are produced solely for the benefit of NAIC members who may utilize them as part of the member’s monitoring of the financial condition of its domiciliary insurers. Unlike the ratings of nationally recognized statistical rating organizations, NAIC designations are not produced to aid the investment decision making process and therefore are not suitable for use by anyone other than NAIC members. Exempt funds do not require a capital reserve; Class 1 funds require insurance companies to set aside a risk-based capital charge when purchasing Class 1 funds. For complete information on the methodology used by NAIC, please visit the following website: http://www.naic.org/svo.htm
